Title: Alumni News

Issue Date: May-1925

Publisher: Ohio State University, College of Engineering

Citation: Ohio State Engineer, vol. 8, no. 4 (May, 1925), 22-26, 34.

URI: <http://hdl.handle.net/1811/33717>

Appears in Collections: [Ohio State Engineer: Volume 8, no. 4 \(May, 1925\)](#)

CIVIL ENGINEERING

W. M. Ray, '93, contributed an article to a recent number of the *Engineering News-Record*. He is engineer the B. & O. R.R. Co., his address being Maloney Bldg., 337 Second Ave., Pittsburgh, Pa.

E. G. Robinson, '93, has donated to the Civil Engineering Department profiles of some of the most difficult railway locations in Mexico, on which he was engaged shortly after graduation. He is now president of the Robinson Optical Company in Columbus, Ohio.

V. R. Covell, '95, is County Engineer, Bureau of Bridges and Buildings, Pittsburgh, Pa.

A. A. Miller, '02, has been promoted to Engineer Maintenance of Way and Structures of the Missouri Pacific with headquarters at St. Louis, Mo.

D. E. Davis, '08, is with the J. N. Chester Co., Pittsburgh, and lives out in Sewickly, Pa.

E. C. Blosser, '08, is one of the Highway Construction Co., doing road building and street paving and general contracting and may be addressed at Elyria Savings & Trust Bldg., Elyria, Ohio.

R. F. MacDowell, '09, announces the opening of an office for the practice of Civil & Sanitary Engineering at 1770 E. 11th St., Cleveland, Ohio.

L. H. Hart, '10, is connected with the Frontier Press Co., 800-820 LaFayette Bldg., Buffalo, N. Y., with Michigan as his territory, his address being 335 W. Cortland St., Jackson, Mich.

G. C. Finley, '10, is with the Guaranty Trust Co., Yakima, Wash.

Theodore Stanton Needels, '15, since November 1923 to date, Structural Engineer, The Austin Co., Cleveland, Ohio, designer of all types of industrial structures. Home address: 1635 Elberon Ave., Cleveland, Ohio.

O. H. Pocock, '16, care of Albert Kahn, Architect.

D. H. Slabaugh, ex-'17, is located in Akron, 17 Spruce Street.

Ben K. Bare, '22, was married March 7th, 1925, to Miss Elizabeth Julietta Richards.

C. E. Pettis, '23, 1829 Superior St., Toledo, Ohio, is connected with the N. Y. C. R.R. They handle all the engineering work between Toledo and Elkhart, Ft. Wayne, Grand Rapids, Lansing, Jackson and Detroit.

K. H. Kinkley, '23, has left Coshocton, Ohio, and is with John Avery, Civil Engineer of New Lexington, Ohio.

John Rennells, '24, 429 Morris Ave., Elizabeth, N. J., is connected with the Newark Bay Bridge for the Central R.R. of N. J., and is engaged in some of the heaviest bridge construction along the Atlantic seaboard.

L. L. Dickson, '24, has left the employ of the Akron, Canton & Youngstown R.R. Co., Northern Ohio R.R., and is engaged with the T. & O. C. Ry. at Toledo, on heavy construction work.

Merrill B. Wittman, '25, may be reached from his permanent address at Cove, Ohio.

ELECTRICAL ENGINEERING

'09 Agner, Frank O., 115 W. Moss Ave., Peoria, Ill.

Balyeat, Forrest S., 1534 34th Ave., S. Seattle, Wash.

Baughman, Ray L., 1631 Arch St., Philadelphia, Pa.

Bond, Allen, 74 Park Ave., Mansfield, Ohio.

Calland, O. G., 129 E. Lake Anna St., Barberton, O.
Culler, Wm. M., Western Electric Co., Chicago, Ill.
Dollison, Arthur H., 2007 Farmers' Bank Bldg., Pittsburgh, Pa.

Ewing, Max C., Columbus Ry. Power & Lt. Co., Columbus, Ohio.

Glunt, Stanley J., 750 Jefferson Ave., Huntington, W. Va.

Gray, G. Francis, 707 Lafayette Ave., Buffalo, N. Y.

Heitman, Albert H., Amer. Tel. & Tel. Co., N. Y.

Knight, Abner R., 307 W. Washington Blvd., Urbana, Ill.

Kremer, Donald S., Arcadia, Calif.

Longworth, C. B., Western Union Telegraph Co., San Francisco, Calif.

Marco, E. T., C Del Marguay Entre Rios, Argentine Republic, S. A.

Marting, Heber E., 14 Woodland Ave., Rutherford, New Jersey.

Richardson, F. A., 212 W. Washington St., Chicago, Illinois.

Richard, Everett B., The Walden, Apt. 8, Terra Haute, Ind.

Roberts, Wm. J., Triumph Elec. Co., Oakley, Ohio.

Shinkle, Geo. H., Higginsport, Ohio.

Sparrow, Wm. H., Hattiesburg, Miss.

Stoltz, Glenn E., 420 Montview Pl., Wilksburg, Pa.

Tabossi, H., British Thomson-Houston Co., South America.

Volkman, Robt. E., 1801 Union Bank Bldg., Wilkinsburg, Pa.

Weimer, Leland D., 304 W. 4th, Beaver Dam, Wis.

Weller, Orville A., Denver Gas & Elec. Co., Denver.

'14 Barrett, Wm. M., Buckeye Steel Castings Co., Columbus, Ohio.

Brubaker, Landis H., Lancaster, Pa.

Bumgardner, Karl J., 338 Shaw St., Girard, Ohio.

Criswell, R. B., 2722 Hubbert Ave., Columbus, O.

Davis, A. F., 899 Parkwood Dr., Cleveland, Ohio.

Dyer, Wilbur C., 303 West 9th Ave., Columbus, O.

Ford, Paul R., Am. Rolling Mill Co., Middletown, O.

Frost, Lloyd W., 224 Crestview Rd., Columbus, O.

Hoppmann, R. B., 94 East Gates St., Columbus, O.

Huff, Jesse, Patent Dept., Gen. Eleec. Co., Schenectady, N. Y.

Kleinberg, Abraham, Transformer Dept., General Electric Co., Pittsfield, Mass.

Levitin, Benjamin, 175 E Broadway, New York City.

Lloyd, Austin M., 1204 Ramona Ave., Cleveland, O.

Metzger, Ralph A., Ohio Bell Tel. Co., Dayton, O.

Noble, W. H., Worthington Pump and Machinery Co., Chicago, Ill.

Pyle, Theo. H., Knowlton & Langland Co., Cincinnati, Ohio.

Randall, H. Kurtz, 629 Woodlawn, Springfield, O.

Richmond, Deane M., London, Ohio.

Shemel, F. R., Cleveland Illuminating Co., Cleveland, Ohio.

Smith, Auburn, 636 Hancock St., Sandusky, Ohio.

Strait, John M., 1178 N. High St., Columbus, Ohio.

Tarbox, Fred, Goodrich Rubber Co., Akron, Ohio.

Walters, V. Edgar, 206 13th St., Milwaukee, Wis.

But the whole team doesn't play first base

To suppose that a baseball nine will all cover just one position is as far from the truth as to think that everyone in the electrical industry is an engineer.

This field will always need trained engineers. But with its great manufacturing, construction and commercial activities, the industry must have non-technical men too.

Since the industry is manned by many types, the result of your work will depend a good deal on the success with which you team up. The qualities that win are not only efficiency attained by the light of a study lamp, but that all-pull-together spirit of the athletic field.

This point of view may be useful to the man who has wondered whether campus activities, with all their striving and stern testing, their setbacks and their triumphs, have any counterpart in after life.

Channel Piers Built by the Foundation Company

HIGHWAY TRAFFIC, WHICH IS NOW TREMENDOUS, AND WHICH IN THE YEARS TO COME WILL CONTINUALLY INCREASE, REQUIRES THE MOST MODERN BRIDGE STRUCTURES. FIRM FOOTINGS FOR THE CHANNEL PIERS OF THE \$4,000,000 HIGHWAY BRIDGE, WERE OBTAINED, UNDER THE TREACHEROUS BED OF THE RARITAN RIVER, BY THE USE OF PNEUMATIC CAISSONS SUNK TO UNUSUAL DEPTHS.

ON LAND OR WATER, AT HOME OR ABROAD

THE FOUNDATION COMPANY, AN ORGANIZATION OF DESIGNING AND CONSTRUCTING ENGINEERS, SPECIALIZES IN THE BUILDING OF DIFFICULT STRUCTURES. THE WORK OF THE FOUNDATION COMPANY, THROUGHOUT THE WORLD, INCLUDES ALL PHASES OF PRIVATE OR PUBLIC UNDERTAKINGS IN THE CONSTRUCTION FIELD.

KOEHRING

Paving in Peru

IT is not only in this country that Koehring pioneers, but in sections all over the world the Koehring paver is blazing new concrete trails of progress, development and civilization.

In Peru, for instance—paving streets of Lima and thirty-two of its other principal cities, building the important motor highway between Lima and Callao and pushing paving work in Cuzco, Arequipa and Ayacucho. The Koehring paver is found taking its part in this major public improvement.

Koehring Pavers and Mixers are identified with noteworthy construction projects in all parts of the country and the world. "Koehring Heavy Duty" is a symbol signifying equipment of the highest grade, built to deliver maximum operating service over a period of years.

COLUMBUS, OHIO

Black and Galvanized SHEETS Tin and Terne Plates

We manufacture SHEET AND TIN MILL PRODUCTS for all purposes — American Bessemer, and American Open Hearth Steel Sheets, Keystone Copper Steel *rust-resisting* Sheets, Apollo Galvanized Sheets, Formed Roofing and Siding Products, Culvert and Flume Stock, Sheets for Special Purposes, Roofing Tin Plates, Bright Tin Plate, Black Plate, Etc.

AMERICAN SHEET AND TIN PLATE COMPANY, Frick Bldg., Pittsburgh, Pa.
Every engineer should have our booklets describing Keystone Copper Steel

TWO STURDY AND RELIABLE

LUFKIN TAPES

FOR ENGINEERS
SURVEYORS
ROAD BUILDERS

THE ENGINEER'S PATTERN

Popular with the engineers. A $\frac{1}{4}$ " wide extra heavy steel tape in substantial metal-lined leather case. Also furnished in open disc reel and open metal frame.

Our line includes, also, a tape for every purpose, each one the best designed for its work.

SEND FOR CATALOG

THE LUFKIN RULE CO.

SAGINAW, MICH.

New York

Windsor, Can.

THE "CHALLENGE"

Suitable for any measuring. A steel line in high-grade metal-lined leather case. Made with $\frac{3}{8}$ " and $\frac{1}{2}$ " wide line. Many highway departments prefer the $\frac{1}{2}$ " and we recommend it for heavy service.

BAILEY METERS

BOILER PANEL consisting of Bailey Multi-Pointer Gage, Type P6F, and Bailey Boiler Meter, Type D26, Class 59.

BAILEY BOILER METERS are of real assistance in obtaining maximum efficiency and capacity from boiler operation because they record the rate of Steam Flow from the boiler, the rate of Air Flow through the furnace and the Flue Gas Temperature on a single uniformly graduated chart. The relation between the Steam Flow and Air Flow shows instantly whether an excess or a deficiency of air is being supplied. Stoker speed as well as the integrator for Steam Flow may be added.

BAILEY MULTI-POINTER GAGES are made with any number of pointers to fit each installation. Indicate Pressure, Temperature, Rate of Flow, Draft, Speed, etc.

BAILEY METERS FOR COAL AND GRANULAR MATERIALS measure coal, crushed ore and other granular materials in large quantities.

BAILEY FLUID METERS record and integrate the flow of steam or water at any pressure or temperature. The meters may be supplied with pressure recorders, temperature recorders or both.

BAILEY GAS METERS record and integrate the flow of low or high pressure gas or air at any temperature. Special meters built for measurement of chemically active gases.

BAILEY GRAVITY RECORDERS FOR LIQUIDS record the true specific gravity of a flowing sample on a 12 inch circular chart.

OTHER TYPES of Meters as well as recording and indicating Gages are made for different purposes, so that nearly any problem in connection with the metering of fluids can be handled.
